KEY ACHIEVEMENTS

- **Web Wizards Club:**
Organized basic web dev classes at university
- **HACKB-24 Hackathon:**
Demonstrated problem-solving in a 24-hr event

SKILLS

CSS GitHub HTML

Java JavaScript

Python Gmail

SUMMARY

I am an aspiring software developer eager to learn and contribute to the IT sector. With a background in computer science and engineering, I have developed proficiency in programming languages like C, Python, and Java, as well as web development. My strong teamwork skills and adaptability drive my innovation and problem-solving abilities, making me a valuable addition to any technology-focused team.
